Facsimile: 601-924-9623

DENTAL DIGEST

Volume 2 JULY 1995 Number 1

The Mississippi State Board of Dental Examiners is a legislatively-mandated state regulatory agency charged with the responsibilities of examining, licensing, registering, and regulating the practices of dentistry and dental hygiene to ensure competency (through examination and licensure) and ethics (through registration and regulation) among all dental professionals in the State of Mississippi for the ultimate goal of safeguarding and enhancing the health and welfare of the citizens of this State. As such, the Mississippi State Board of Dental Examiners is neither affiliated with nor functions as a subsidiary of any private or professional organization.

DIRECT FROM THE DIRECTOR

Welcome to the July 1995 edition of the semi-annual newsletter published by the Mississippi State Board of Dental Examiners ("the MSBDE"). One of the first things you will note is that we have given our newsletter a name--Dental Digest. Also, in January 1996 the MSBDE will move toward publishing the Dental Digest on a quarterly basis in an effort to more timely provide our dental professionals, other in-state and out-of-state regulatory boards, and the citizens of this State with up-to-the-minute changes in MSBDE laws and regulations, formal disciplinary actions, and other items of interest and concern relating to the regulation of the dental profession in the State of Mississippi.

Additionally, I would like to take this opportunity to welcome two new Board members: Lewis E. Alexander, D.D.S. of Long Beach, who represents District Five; and Thomas L. Jones, Jr., D.D.S. of Clinton, who represents District Four. Drs. Alexander and Jones were appointed by Governor Fordice to four-year terms effective July 1, 1995. Dr. Alexander replaces Alvin L. Felts, Jr., D.D.S., and Dr. Jones replaces Mark W. Blackburn, D.D.S., both of whom should be commended for their years of dedication and service to the citizens of this State and to the dental profession. We will miss them both. Also, Catherine L. Gatewood, R.D.H. was re-appointed by Governor Fordice to a four-year term effective July 1, 1995 as the MSBDE dental hygiene member. Congratulations and best wishes during the next four years!

Finally, at its meeting on May 29, 1995, the MSBDE elected officers for July 1, 1995 through June 30, 1996. Theodore C. Jones, D.D.S. from Ridgeland was elected President, and William T. O'Brien, III, D.D.S. from Natchez was elected Secretary. Cheers to you both, and good luck in the months ahead. □

MSBDE BOARD MEMBERS

Theodore C. Jones, D.D.S., President
Member-at-Large, Ridgeland

William T. O'Brien, III, D.D.S., Secretary
District Six, Natchez

Lewis E. Alexander, D.D.S.
District Five, Long Beach

James A. Bounds, D.M.D.
District Three, Laurel

Catherine L. Gatewood, R.D.H.
Dental Hygiene Member, Clinton

Thomas L. Jones, Jr., D.D.S.
District Four, Clinton

Fred A. Murphree, D.D.S.
District One, Tupelo

Andrew R. Townes, D.D.S.
District Two, Grenada

MSBDE STAFF

Leah Diane Howell, Executive Director
Martha B. Crumby, Administrative Assistant II
Deborah A. Frechette, Secretary Executive
Vacant, Accounting/Auditing Technician

ANNUAL REGISTRATION FOR DENTISTS AND DENTAL HYGIENISTS

Pursuant to Miss. Code Ann. § 73-9-19, all dentists and dental hygienists must "apply within the period of sixty (60) days prior to September 1 of each year for annual registration." (Emphasis added.) Some licensees, however, are under the impression that their annual registration is not due until September 1 each year; however, your annual registration actually is due "sixty (60) days prior to September 1." Thus, your annual registration is due July 1 each year, and the statute grants all dentists and dental hygienists sixty (60) days to ensure compliance. Therefore, all annual registration materials must be received by the MSBDE on or before August 31 of each year. Otherwise, if your annual registration is not received on or before August 31, you will be penalized. Miss. Code Ann. § 73-9-43(2) provides for the following penalties:

> The board may enact and enforce for delinquency in payment for any fees set out in this section a penalty in addition to the fee of an amount up to but not in excess of the fee. An additional fee of an amount equal to the first penalty may be assessed for each thirty (30) days, or part thereof, of delinquency. If any licensed and registered dentist or dental hygienist should be delinquent in payment of registration fees for a period as long as ninety (90) days, such person shall be presumed to be no longer practicing and shall be stricken from the rolls....

! Any dentist, dental hygienist, or dental assistant who does not promptly notify the MSBDE of a change of address may be assessed a $10.00 penalty.

Consequently, the MSBDE strongly encourages each of you to remit your signed, completed profile sheets and renewal fee as soon after July 1 as possible. Do not wait until the eleventh hour and depend on the United States Postal Service to ensure the timely delivery of your registration materials--you may be required to pay a penalty. Furthermore, any additions or revisions to your profile sheets MUST BE TYPED either on the reverse of the profile sheet for those of you who have typewriters, or on a separate piece of paper and attached to the profile sheet for those of you who only have access to computers. Very specific instructions have been included with each profile sheet, and please ensure that you carefully follow these instructions. Profile sheets noting additions or revisions that are not TYPED will be returned; profile sheets not signed, dated, or indicating the number of months the licensee practiced in Mississippi will be returned; and the annual registration for any dentist or dental hygienist whose profile sheet is returned will be considered INCOMPLETE until such time as a properly completed profile sheet and fee are returned to the office.

You will note that beginning with the July 1 through August 31, 1995 annual registration period, any dentist holding a valid specialty license is required to renew that specialty license at a fee of $50.00. Therefore, a licensed dentist who holds one specialty license is required to pay $150.00 (the annual dental license renewal fee of $100.00 plus $50.00 for one specialty license), and, likewise, any licensed dentist who holds two specialty licenses is required to pay $200.00 (the annual dental license renewal fee of $100.00 plus $50.00 for each specialty license held, or $100.00). Furthermore, according to current law, the payment of the annual renewal fee is "optional" for all dentists over seventy (70). However, should a dentist who is over 70 pay the annual license renewal fee and then later determine that he/she did not wish to do so, the MSBDE will be unable to refund that licensee's annual registration fee.

Finally, as of July 31, 1995, of the licensees mailed annual registration notices, approximately 775 of 1,429 dentists and 235 of 754 dental hygienists have renewed their licenses. For those of you who, as yet, have not renewed, please do so as soon as possible. Should you wait until the last minute and should you submit an inappropriately completed profile sheet or the incorrect renewal fee, your registration will be returned; furthermore, anyone whose returned profile sheet is received after August 31, 1995 will be assessed a penalty for late registration. The MSBDE feels that by carefully following the instructions provided with your profile sheets, your annual registration will go much more smoothly, and your certification cards will be mailed to you in a much shorter time period than in years past. Please contact the MSBDE's office (601-924-9622) should you have any questions regarding the annual registration process. ☐

DENTAL ASSISTANTS RENEWING RADIOLOGY PERMITS

As stated in the December 1994 newsletter, in addition to passing the appropriate test and being granted a radiology permit, dental assistants must annually renew those permits. These permits must be renewed whether or not a permit holder presently is employed as a dental assistant. Currently, the annual renewal fee is $20.00, and the period for renewal is October 1 through November 30 each year. Board Regulation 25, Section VI.B., states as follows:

> Every person who holds a radiology permit shall, together with required information and specified renewal fee, apply within the period of sixty (60) days prior to December 1 of each year for annual renewal of permits. Any person who shall be delinquent in payment of renewal fees for a period as long as ninety (90) days shall be voided for failure to register their radiology permit. (Emphasis added.)

As with the dentists and dental hygienists, many dental assistants believe their annual renewal is not due until December 1 of each year; however, your annual renewal actually is due "sixty (60) days prior to December 1," which means that the completed profile sheet and appropriate fee are due October 1 each year. Board Regulation 25 allows you sixty (60) days to ensure

compliance. As stated in the article concerning annual registration for dentists and dental hygienists, in the future please do not wait until the eleventh hour and depend on the United States Postal Service to ensure the timely delivery of your annual registration materials--you, too, may be required to pay a penalty. The penalties for late registration for dental assistants are the same as those for dentists and dental hygienists. Board Regulation 25, Section VI.C. provides as follows:

> If the payment of the annual renewal fee is not received by the Board on or before November 30 each year, the Board may enact and enforce a penalty for the delinquent payment of the annual renewal fee. As stated in Section VI. B. above, the penalty phase will run for ninety (90) days. From December 1 to December 31 each year, the annual renewal fee will be two times the original renewal fee; from January 1 to January 31 each year, the annual renewal fee will be three times the original renewal fee; and from February 1 to February 28 (or February 29 when appropriate) each year, the annual renewal fee will be four times the original renewal fee. As of March 1 each year and as noted in Section VI. B. above, any radiology permit that has not been renewed will be voided for a failure to re-register.

Beginning with the 1995-1996 annual registration process, dental assistants holding radiology permits also will receive "profile sheets." The profile sheets will be pink and will have all the information printed on them. Additionally, very specific instructions as to the appropriate completion of your profile sheet and submission of the renewal fee will be provided. Like the dentists and dental hygienists, please ensure that you very carefully follow all instructions. Any additions or revisions must be TYPED either on the reverse of the profile sheet for those of you who have access to a typewriter, or on a separate sheet of paper and attached to the profile sheet for those of you who only have access to a computer. All profile sheets must be signed, dated, and include the correct renewal fee, plus any penalty. Furthermore, if your profile sheet is returned for any reason and if that returned profile sheet is received after November 30, you will be assessed a penalty.

On March 1, 1995, the MSBDE voided approximately 159 radiology permits for a failure to re-register. Consequently, those dental assistants no longer can administer radiographs as part of their dental assisting practices. Should these dental assistants continue to administer radiographs without the requisite permit, the employing dentist will be subject to formal disciplinary action by the MSBDE. Unless an individual is a graduate of an accredited dental assisting program, a graduate of an accredited dental hygiene program, or a Certified Dental Assistant, the only options available to be granted another radiology permit are (1) to successfully complete a radiology course approved by the MSBDE; or (2) to successfully complete a radiology examination administered by the MSBDE at its Clinton, Mississippi office. Therefore, it is vitally important that you do not allow your radiology permit to be voided, unless you are certain that you no longer wish to administer radiographs as part of your dental assisting practice. If you have any questions, please contact the MSBDE's office at 601-924-9622 between 8:00 a.m. and 5:00 p.m., Monday through Friday. ☐

! The Drug Enforcement Administration will make controlled substances presentations at study club meetings,, district meetings, dental schools, and dental hygiene schools. Contact Mr. Wayne Michaels at 504-840-1060 or 504-840-1100 for more information.

• CONTROLLED SUBSTANCE DIVERSION TIPS •

The following is a reprint of a portion of an article entitled "Diversion Prevention Tips" in Volume 1, Number 5 of the Diversion Quarterly. This information originally was developed by the Maryland Board of Physician Quality Assurance.

- Treat your prescription pads like cash--DO NOT LEAVE THEM LYING AROUND.
- Minimize the number of prescription pads in use at one time.
- Multi-colored prescription pads are harder to alter or to reproduce.
- Use the prescription pad for prescribing only--NOT TO WRITE NOTES OR INSTRUCTIONS.
- Consider using sequentially numbered blanks when prescribing controlled substances.
- Record the amount of medication and number of authorized refills in the patient's chart.
- Don't leave the "Number of Refills" space blank.
- Use indelible ink.
- Don't sign prescription blanks in advance.
- Write the number of pills or ounces prescribed both in script and in numerals to deter alterations. ☐

• TAKE NOTE •

- Pursuant to Miss. Code Ann. § 73-9-3(9) a dentist "shall delegate the removal of calcareous deposits only to a regularly licensed and registered dental hygienist as regulated by the State Board of Dental Examiners." At its meeting on March 11, 1994, the MSBDE defined "calcareous deposits" as follows: **"Dental calculus, either supragingival or subgingival."** As such, only regularly licensed dentists or dental hygienists may remove calcareous deposits. Dental assistants are not allowed to and must not perform this dental procedure. A list of acceptable procedures for dental assistants appears later in this newsletter.

- If a dentist or dental hygienist registers himself/herself with the MSBDE as "retired" or as "disabled," that

practitioner must not engage in the practice of dentistry or dental hygiene whatsoever while listed as "retired" or as "disabled." Once a practitioner registers as "retired" or "disabled," that individual is placed on the MSBDE's inactive list. While considered inactive, practitioners do not have to meet continuing education or cardiopulmonary resuscitation requirements. Therefore, dentists who are "retired," "disabled," or "inactive" must not write prescriptions in any manner whatsoever or perform dental procedures on long-time patients or family members. If a dentist or dental hygienist practices even one hour of one day, that practitioner must not register himself/herself as "retired," "disabled," or "inactive." Furthermore, anyone practicing their respective professions must meet continuing education and cardiopulmonary resuscitation requirements.

- Miss. Code Ann. § 73-9-39 states as follows: **"It shall be unlawful for any person or persons to practice or offer to practice dentistry under, or use the name of any company, association or corporation or business name or any name except his or their own in a manner which is in violation of section 73-9-61, or to operate, manage or be employed in any room, rooms or office where dental work is done or contracted for, and that is operated under the name of any company, association, trade name or corporation in a manner which is in violation of Section 73-9-61."** Additional information regarding "fictitious names" appears in Board Regulation 43, reprinted later in this newsletter.

- Pursuant to Board Regulations 41 and 45, the first two-year reporting period for continuing education and cardiopulmonary resuscitation compliance will end August 31, 1995. The MSBDE plans to begin auditing five percent (5%) of the dentists and dental hygienists in each of the six (6) districts every year for compliance with these Regulations. Anyone being audited for compliance will receive a Continuing Education Reporting Form in the mail which must be completed by the deadline date and returned to the MSBDE with the required proof of compliance. Anyone found not to be in compliance with Board Regulations 41 and 45 will be subject to formal disciplinary action by the MSBDE.

- For any dentist or dental hygienist to remain on "active" status, that practitioner must actively practice his/her profession "for at least three (3) months of the immediately preceding license renewal period...." Miss. Code Ann. § 73-9-19, ¶ 5. At its meeting on April 21, 1995, the MSBDE defined "three months" as one day per month for any three (3) months of the preceding license renewal period. Furthermore, the three (3) months do not need to be consecutive. Therefore, a practitioner will be considered "active" if he/she practices a minimum of three (3) days, as long as those three (3) days are not in the same month. However, while considered "active" a practitioner must ensure compliance with all continuing education and cardiopulmonary resuscitation requirements.

- Any dentist or dental hygienist changing from "inactive" to "active" status must first make a written request to the MSBDE for approval of a change of status. Furthermore, any practitioner wishing to change to "active" status must have met all continuing education and cardiopulmonary resuscitation requirements during the twelve (12) months prior to requesting "active" status.

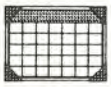
- For continuing education reporting purposes, any practitioner receiving a two-year certification, eight-hour in cardiopulmonary resuscitation may count four (4) of the eight (8) hours toward continuing education during the year initially certified, and the remaining four (4) of the eight (8) hours toward continuing education during the second year of certification.

- Practitioners must maintain proof of continuing education course attendance (e.g., certificates of attendance) for a minimum of three (3) years from the date of completion of the approved continuing education course.

- Whenever a written complaint regarding a licensed dentist or dental hygienist is received by the MSBDE, the investigating officer contacts both the complainant and licensee to determine the legitimacy of the complaint. As part of the investigatory process and site visits, all dental licenses, dental hygiene licenses, radiology permits, continuing education and cardiopulmonary resuscitation records, and Drug Enforcement Administration registration numbers are verified to ensure compliance with all MSBDE rules and regulations.

- General Anesthesia and IV Sedation permits are renewed on an annual basis from September 15 through October 31 each year. The cost for annual renewal is $50.00 per permit. □

NOTEWORTHY DATES



As the Mississippi State Board of Dental Examiners is a legislatively-mandated regulatory agency, its meetings are open to the public. However, due to the confidential and/or sensitive nature of certain aspects of the Board's business, the Board may vote to go into "Closed Session." **Also, no items will be added to the agenda of any Board meeting as of one week prior to the date of that meeting.** Currently, meetings are held at the Courtyard by Marriott in Jackson, Mississippi; however, please call the Board's office (601-924-9622) prior to any meeting to verify the correct date, time, and location. The following dates, including agenda cut-off dates, have been set aside for the remainder 1995 and early 1996 for Board meetings:

Friday, September 22, 1995 (September 15, 1995 Cut-Off)
Friday, November 3, 1995 (October 27, 1995 Cut-Off)
Friday, December 8, 1995 (December 1, 1995 Cut-Off)
Friday, January 26, 1996 (January 19, 1996 Cut-Off)

The Board, in conjunction with the University of Mississippi School of Dentistry, is sponsoring a two-part seminar entitled "DEA Overview and the Controlled Substances Act" and "Chemical Dependency: Impact on the Practitioner." Anyone interested in attending should contact Ms. Agnes Triplett at the University of Mississippi School of Dentistry, (601)984-6003.

Monday, August 21, 1995 (8:00 a.m. until 12:00 p.m.)

For those dental assistants who wish to obtain radiology permits, the following dates through the end of 1995 have been set aside by Hinds Community College and Louisiana State University for radiology seminars:

Hinds Community College--Jackson, MS

October 13-14, 1995

For additional information, you may call Ms. Becky Davidson, Hinds Community College, Nursing/Allied Health Center, at (601)371-3522.

Louisiana State University--Baton Rouge, LA

October 14, 1995
December 9, 1995

For additional information, you may call the Continuing Education Department at Louisiana State University, (504)948-8584, or toll free in Louisiana at (800)223-1569, extension 8584. ☐

REGULATION HIGHLIGHT

As part of its legislatively-mandated regulatory responsibilities, the MSBDE must enforce the laws of this State and enact any regulations necessary to ensure the consistent and ethical compliance with these laws. Accordingly, when deemed appropriate and as a means of establishing uniform policies for all dental professionals in Mississippi, the MSBDE enacts and/or amends regulations. Whenever a regulation is enacted or amended, it must be filed immediately with the Mississippi Secretary of State and is not considered approved until thirty (30) days after filing. As a regular feature of the Dental Digest, the MSBDE from time-to-time highlights certain regulations that either have been amended or enacted. Accordingly, reprints of Board Regulations 7, 21, 25, 41, 43, and 45 follow. Please carefully review each Regulation and note the changes.

Board Regulation #7

Section I.C. has been added to provide stipulations for Provisional Fellowship Programs.

I. Pursuant to its authority under Miss. Code Ann. § 73-9-28 (Supp. 1983), the Board may, in its discretion, award the following types of licenses other than regular licenses to practice dentistry or dental hygiene in this State, to individuals selected for the faculty of any college of dentistry, college of dental hygiene, or other dental auxiliary program; and for participants in any Board-approved fellowship program:

A. Provisional License

1. A provisional license shall authorize the licensee to perform only the following:
   a. instruction,
   b. the performance of dentistry or dental hygiene adjunct to instruction, and,
   c. participation in intramural practice plans, subject to the limitations set forth in Section II of this Regulation.
2. A provisional license may be awarded by the Board if the applicant meets the following criteria:
   a. the applicant is a graduate of a fully accredited dental or dental hygiene school, and,
   b. certified by the National Board of Dental Examiners, and,
   c. licensed to practice in at least one state in the United States, and,
   d. the applicant has not failed the Mississippi dental or dental hygiene licensure exam, and,
   e. he is recommended for such licensure by the Dean of the institution at which he is to teach; or
   f. he has held what was known as a provisional license prior to August 1, 1984, and he is recommended by the Dean of the institution at which he is to teach for a provisional license under these amendments.
3. A provisional license shall be valid for one year and must be renewed annually by application to the Board.
4. Provisional licenses shall be awarded only to full-time faculty.

B. Teaching License

1. A teaching license shall authorize the licensee to perform only the following:
   a. instruction, and,
   b. performance of dentistry or dental hygiene adjunct to instruction, and,
   c. *nonmechanical consultation with Federal or State Agencies, whether for a fee or not.*
2. A teaching license may be awarded by the Board if the applicant meets the following criteria:
   a. the applicant is either a graduate of a fully accredited dental or dental hygiene school in the United States, or, the applicant is licensed to

practice dentistry or dental hygiene in a foreign country, and, holds a faculty appointment in a dental or dental hygiene school in such foreign country, and,

b. he is recommended for such licensure by the Dean of the institution at which he is to teach.

3. A teaching license shall be valid for a period of one year, and shall not be renewed unless the Board, in its discretion, determines otherwise.
4. A teaching license shall be awarded to either full-time faculty, or part-time faculty.

C. Provisional Fellowship License

1. A Provisional Fellowship License shall authorize the licensee to perform only dentistry or dental hygiene adjunct to that individual's participation in any Board-approved fellowship program.
2. A Provisional Fellowship License does not entitle the individual to practice dentistry or dental hygiene in any manner whatsoever outside the scope and responsibilities of that individual's participation in any Board-approved fellowship program, and any attempt to do so would be grounds for revocation of such license to practice dentistry or dental hygiene in the State of Mississippi.
3. A Provisional Fellowship License may be awarded by the Board if the individual meets the following criteria:
   a. the individual is a graduate of a fully accredited dental or dental hygiene school, and,
   b. certified by the National Board of Dental Examiners, and,
   c. licensed to practice dentistry or dental hygiene in at least one state in the United States, and,
   d. the individual has not failed the Mississippi dental or dental hygiene licensure exam, and,
   e. the individual is recommended for such licensure by the institution at which he/she is to participate in the Board-approved fellowship program, and,
   f. the individual accurately completes the appropriate application for licensure and submits to an interview before the Board for approval as a participant in any Board-approved fellowship program prior to the actual commencement of participation in the Board-approved fellowship program.
4. A Provisional Fellowship License shall be valid for one year and must be renewed annually by application to the Board.
5. Provisional Fellowship Licenses shall be awarded only to full-time participants in any Board-approved fellowship program.

II. The policy of the State of Mississippi, as enacted by the Legislature in the Mississippi Dental Practice Act is that only those persons who have taken and passed examinations administered and approved by this Board should be permitted to practice dentistry or dental hygiene in exchange for compensation from members of the public. Being bound by the enactment of the Legislature, the Board hereby adopts the following limitations on such practice, whether it be referred to as "intramural" or otherwise, by faculty of any college of dentistry, college of dental hygiene or other dental auxiliary program.

A. Persons who are under hire as members of the faculty of any of said institutions prior to August 1, 1984, may continue to participate in "intramural" practice programs at their respective institutions until December 31, 1985. From and after December 31, 1985, no intramural practice by such current faculty members shall be permitted unless such faculty member has duly applied for, taken and passed an examination for licensure in this state which is administered and approved by this Board.

B. Persons who are hired as members of the faculty of any of said institutions after August 1, 1984, shall be permitted to participate in intramural practice programs at their respective institutions only up to the date of the first examination for licensure administered and approved by this Board after the respective date of hire of such persons. From and after the date of such first examination, no faculty member hired after August 1, 1984, shall be permitted to engage in intramural practice unless such faculty member has applied for, taken and passed an examination in this state which is administered and approved by this Board.

Regulation Seven amended by the Mississippi State Board of Dental Examiners 2 December, 1994.

! William T. O'Brien, III, D.D.S., Secretary of the MSBDE, received the title of Fellow with the Academy of General Dentistry on July 16, 1995. Congratulations Dr. O'Brien--Mississippi will benefit greatly from your achievement!

Board Regulation #21

Regulation #21 was rescinded in lieu of amended Regulation #43.

Board Regulation #25

Section VI.C. was amended to more clearly define the penalties applicable to annual renewal of radiology permits.

I. Authority:

The 1985 Mississippi Dental Practice Act (Miss. Code Ann. §§ 73-9-1, et. seq., [Supp. 1985]) requires the Mississippi State Board of Dental Examiners (hereinafter, the Board), to carry out the purposes and provisions of the laws pertaining to the practice of dentistry and dental hygiene in Mississippi. Section 73-9-5 of the Dental Practice Act provides that the Board may prohibit any auxiliary personnel from rendering service that it feels is not in the best interest of public welfare.

II. Purpose:

It is the purpose of this Board regulation to:

A. Provide for the establishment of minimum standards for the issuance of permits to such persons who are found to be qualified to administer dental radiology procedures; and

B. Insure that the administration of dental radiologic procedures by dental auxiliaries are consistent with the Board's duty to protect the interest of public welfare.

III. General Provisions:

A. Dental hygienists who are currently licensed in the State of Mississippi are considered to have satisfied the requirements of this regulation and will not be required to obtain a radiology permit. Dental hygienists who have graduated from an accredited school of dental hygiene but are not licensed in this state will be required to apply for a radiology permit.

B. Dental assistants certified by the Dental Assisting National Board, Inc., and dental assistants who are graduates of accredited dental assisting programs accredited by the American Dental Association Commission on Dental Accreditation are considered to have satisfied the requirements of this regulation and will not be required to complete further study or testing to make application for a radiology permit.

C. Dental assistants not otherwise qualified for a radiology permit, pursuant to Section III B. above, shall, upon completion of any radiology seminar approved in advance by the Board, be issued a permit within 90 days following the completion of such seminar. The assistant must submit the proper credentials as outlined in item IV.

D. Dental assistants not otherwise qualified for a radiology permit, pursuant to Section III B. and III C. above, shall, upon petition of the Board for written examination, and upon having a passing grade of 70 or above on this written examination, be issued a radiology permit within 90 days upon submitting proper credentials as outlined in item IV.

IV. Issuance of Radiology Permits:

Dental assistants must submit the following to the Board:

A. Application for radiology permit;

B. Certified check or money order to cover application fee;

C. Proof of completion of requirements III B, III C or III D.

V. Re-issuance of Expired Permits:

A dental assistant who previously has held a permit to administer radiographs in this state but has not kept the permit current will be required to complete all requirements as set out herein for original applicants.

VI. Annual Renewal of Radiology Permits:

A. The State Board of Dental Examiners shall maintain a compiled list of names and post office addresses for all dental assistants who have applied for and been issued a radiology permit. Every person holding a radiology permit shall promptly keep the Board advised of any change of mailing address.

B. Every person who holds a radiology permit shall, together with required information and specified renewal fee, apply within the period of sixty (60) days prior to December 1 of each year for annual renewal of permits. Any person who shall be delinquent in payment of renewal fees for a period as long as ninety (90) days shall be voided for failure to register their radiology permit.

C. If the payment of the annual renewal fee is not received by the Board on or before November 30 each year, the Board may enact and enforce a penalty for the delinquent payment of the annual renewal fee. As stated in Section VI. B. above, the penalty phase will run for ninety (90) days. From December 1 to December 31 each year, the annual renewal fee will be two times the original renewal fee; from January 1 to January 31 each year, the annual renewal fee will be three times the original renewal fee; and from February 1 to February 28 (or February 29 when appropriate) each year, the annual renewal fee will be four times the original renewal fee. As of March 1 each year and as noted in Section VI. B. above, any radiology permit that has not been renewed will be voided for a failure to re-register.

VII. Enforcement:

Licensed dentists who allow dental auxiliaries to expose radiographs without complying with this regulation shall be considered in violation of Section 73-9-61, Mississippi Code of 1972, Annotated, and may at the Board's discretion, be subject to license revocation or suspension or other action thereon.

Regulation Twenty-Five amended by the Mississippi State Board of Dental Examiners 2 December, 1994.

Board Regulation #41

Section 12 has been amended to state that any licensee wishing to change from "inactive" to "active" status must be current in continuing education and cardiopulmonary resuscitation requirements during the twelve (12) months prior to requesting a change in status.

Purpose: To Establish Continuing Education Requirements of Dentists and Dental Hygienists.

1. Continuing Dental Education (CDE) requirements will be effective on July 1, 1993 immediately following adoption of this regulation by the Mississippi State Board of Dental Examiners and reporting will be incorporated with the annual registration to be submitted one year following the effective date of this regulation, which period shall be from September 1 through August 31 of each year.

2. With the initial reporting ending August 31, 1995, every licensed dentist shall be required to have forty (40) hours documented, approved continuing education. Every year thereafter, each licensed dentist shall have forty (40) hours of continuing education for the previous two (2) consecutive years. Approved CDE shall consist of courses approved by the ADA, AGD, MDA, MDS, NDA, or other courses or activities specifically approved by the Board for CDE credit. No more than four (4) hours per year on the subject of CPR (Cardiopulmonary Resuscitation) shall be allowed toward the two-year, forty-hour requirement.

3. With the initial reporting ending August 31, 1995, every licensed dental hygienist shall be required to have twenty (20) hours documented, approved continuing education. Every year thereafter, each licensed dental hygienist shall

have twenty (20) hours of continuing education for the previous two (2) consecutive years. Approved CDE for dental hygienists shall consist of courses approved by the MDHA, ADHA, MDA, MDS, AGD, ADA, NDA, or other courses or activities specifically approved by the Board for CDE credit. No more than four (4) hours per year on the subject of CPR (Cardiopulmonary Resuscitation) shall be allowed toward the two-year, twenty-hour requirement.

4. Continuing Education credit will not be given for video courses, audio courses, reading, or correspondence courses.
5. Instructors of Continuing Education Courses only shall receive one-time credit for a course, and shall receive the same credit for the course as participants.
6. Unless otherwise ordered by the Board, continuing education hours required by disciplinary order shall not be used to satisfy the continuing education requirements for license renewal.
7. A record of courses taken, the date and location and number of hours for such course, and course notes or materials shall be kept by the dentist or hygienist and shall be made available for review at any time by any member of the Board or by any designated agent of the Board.
8. Each dentist or hygienist shall certify on the annual registration card the number of CDE hours completed by him/her in the preceding reporting period.
9. False certification of the number of hours completed, or the failure to attend and complete the required amount of CDE shall subject the dentist or hygienist to disciplinary action, including revocation of license.
10. The following disciplinary actions will be taken against dentists not meeting the requirements set forth in item number 9 above:

    First Offense: Five Hundred and No/100 Dollars ($500.00) fine.

    Second Offense: One Thousand Five Hundred and No/100 Dollars ($1,500.00) fine plus a thirty (30) day suspension of license.

    Third Offense: Five Thousand and No/100 Dollars ($5,000.00) fine plus a six (6) month suspension of license.
11. The following disciplinary actions will be taken against dental hygienists not meeting the requirements set forth in item number 9 above:

    First Offense: Two Hundred Fifty and No/100 Dollars ($250.00) fine.

    Second Offense: Seven Hundred Fifty and No/100 Dollars ($750.00) fine plus a thirty (30) day suspension of license.

    Third Offense: Two Thousand Five Hundred and No/100 Dollars ($2,500.00) fine plus a six (6) month suspension of license.
12. Any dentist or dental hygienist requesting a change from inactive to active status is not required to meet the continuing education or cardiopulmonary resuscitation requirements for the reporting period during which that dentist or dental hygienist was inactive. However, any dentist or dental hygienist requesting active status must, within the previous twelve (12) months prior to requesting active status, be current in cardiopulmonary resuscitation and have acquired twenty (20) and ten (10) hours of continuing education, respectively.

Regulation Forty-One amended by the Mississippi State Board of Dental Examiners 21 April, 1995.

! Any dentist holding a Mississippi license, provisional or otherwise, who is on staff either part-time or full-time at the Dental School or any hygiene schools in Mississippi and who has patient contact in the clinics must be current in continuing education and cardiopulmonary resuscitation.

Board Regulation #43

Sections II.E. and F. have been changed to delete the requirement that the names of dental hygienists be posted and maintained in the records of a facility operating under a fictitious name.

Purpose: To regulate advertising in order to protect consumers and maintain standards among licensed professionals, and to carry out this duty the Board must necessarily impose reasonable restrictions.

I. **Name of Dental Facility**. Since the name under which a dentist conducts his or her practice may be a factor in the selection process of the patient, and use of a trade name or an assumed name that is false or misleading in any material respect is unethical, a dentist may practice in a dental facility which uses any of the following names:

   A. The name of the dentist as it appears on his or her license and renewal certificate; or

   B. The name of a dentist who employs him or her and practices in the same facility; or

   C. A partnership name composed of the name(s) of one or more dentists practicing in the same facility; or

   D. A corporate name composed of the name(s) of one or more of the dentists practicing as employees of the corporation in the same facility; or

   E. A fictitious name, if the conditions set forth in subsection II of this Regulation are fulfilled.

II. **Fictitious Name**. Dentists licensed in the State of Mississippi who practice as individuals, partnerships, professional corporations, associations, or other group practices may use a fictitious or corporate name for the facility in which they conduct their practice if the following conditions are met:

   A. Each fictitious or corporate name shall be registered with the Board by any licensed dentist(s), who must be associated with the dental facility and who shall assume responsibility for compliance with the section. Each fictitious or corporate name must be approved by the Board prior to the use of the name. Names which in the judgment of the Board are false, misleading, or deceptive will be prohibited.

   B. Each fictitious name must list the family name(s) of the applying and responsible dentist(s).

C. It is the obligation of each licensed dentist who works in a facility that utilizes a fictitious or corporate name to notify the Board in writing of the same.

D. All advertisements including, but not limited to, signage, printed advertisements, and letterheads shall contain the name, as it appears on his or her license and renewal certificate, degree (D.M.D. or D.D.S.), and, if qualified, a specialty recognized by the American Dental Association of at least one licensed dentist who is associated with the dental facility and who shall, in conjunction with the licensed dentist referred to in subsection A., assume responsibility for the advertisement.

E. In the entrance or reception area of the dental office, a chart or directory listing the names of all dentists practicing at that particular location shall be kept at all times prominently and conspicuously displayed.

F. The names of all dentists who practice under the fictitious or corporate name shall be maintained in the records of the dental facility for five (5) years following the departure of any individual from the practice.

G. Fictitious names previously approved and registered with the Board will be considered as being in compliance with these Rules and Regulations.

H. A dentist may practice in a predominantly medical facility that uses a fictitious name.

III. **Name of Record**. Subsequent to the administration of dental service, the dentist of record shall place his or her name in the record of the patient following a description of the service rendered. If the treatment is rendered by a dentist other than the dentist of record or by a dental hygienist, the name of that person shall be placed in the record of the patient. For advertising purposes only, use of the name of a dentist no longer actively associated with the practice may be continued for a period not to exceed one (1) year.

IV. **Approval or Rejection of a Corporate Name/Trade Name**.

A. The Mississippi State Board of Dental Examiners shall notify the party submitting a proposed corporate name/trade name within sixty (60) days after submission as to the approval or rejection of the proposed name.

B. If the proposed name is rejected, the party submitting the name shall have fifteen (15) days from receipt of the notice of the rejection to request an appearance before the Board for reconsideration of the Board's rejection. The Board shall notify the party seeking reconsideration of a rejected corporate name/trade name of its decision within thirty (30) days after the party's appearance before the Board.

V. **Specialties**. The only recognized specialties of dental practice in Mississippi as defined by the Mississippi State Board of Dental Examiners are as follows:

A. **Dental Public Health**. Dental public health is the science and art of preventing and controlling dental diseases and promoting dental health through organized community efforts. It is that form of dental practice which serves the community as a patient rather than the individual. It is concerned with dental health education of the public, with applied dental research, and with the administration of group dental care programs as well as the prevention and control of dental diseases on a community basis. (Adopted May 1976, American Dental Association.)

B. **Endodontics**. Endodontics is the branch of dentistry which is concerned with the morphology, physiology, and pathology of the human dental pulp and periradicular tissues. Its study and practice encompass the basic and clinical sciences including biology of the normal pulp, the etiology, diagnosis, prevention, and treatment of diseases and injuries of the pulp, and associated periradicular conditions. (Adopted December 1983, American Dental Association.)

C. **Oral Pathology**. Oral pathology is the specialty of dentistry and discipline of pathology that deals with the nature, identification, and management of diseases affecting the oral and maxillofacial regions. It is a science that investigates the causes, processes, and effects of these diseases. The practice of oral pathology includes research and diagnosis of diseases using clinical, radiographic, microscopic, biochemical, or other examinations. (Adopted May 1991, American Dental Association.)

D. **Oral and Maxillofacial Surgery**. Oral and maxillofacial surgery is the specialty of dentistry which includes the diagnosis, surgical, and adjunctive treatment of diseases, injuries, and defects involving both the functional and aesthetic aspects of the hard and soft tissues of the oral and maxillofacial region. (Adopted October 1990, American Dental Association.)

E. **Orthodontics and Dentofacial Orthopedics**. Orthodontics is that area of dentistry concerned with the supervision, guidance, and correction of the growing or mature Dentofacial structures, including those conditions that require movement of teeth or correction of malrelationships and malformations of their related structures and the adjustment of relationships between and among teeth and facial bones by the application of forces and/or the stimulation and redirection of functional forces within the craniofacial complex. Major responsibilities of orthodontic practice include the diagnosis, prevention, interception, and treatment of all forms of malocclusion of the teeth and associated alterations in their surrounding structures; the design, application, and control of functional and corrective appliances; and the guidance of the dentition and its supporting structures to attain and maintain optimum occlusal relations in physiologic and aesthetic harmony among facial and cranial structures. (Definition adopted December 1980 and Designation adopted October 1994, American Dental Association.)

F. **Pediatric Dentistry**. Pediatric dentistry is the practice and teaching of comprehensive preventive and therapeutic

! Kenneth Crawley, D.D.S. of Columbia is President-Elect of the American Association of Dental Examiners. His term of office as President will begin October 6, 1995. Congratulations and all the best of luck to you, Dr. Crawley. Mississippi is on the move!

oral health care of children from birth through adolescence. It shall be construed to include care for special patients beyond the age of adolescence who demonstrate mental, physical, and/or emotional problems. (Adopted 1985, American Dental Association.)

G. **Periodontics**. Periodontics is that specialty of dentistry which encompasses the prevention, diagnosis, and treatment of diseases of the supporting and surrounding tissues of the teeth or their substitutes and the maintenance of the health, function, and aesthetics of these structures and tissues. (Adopted December 1992, American Dental Association.)

H. **Prosthodontics**. Prosthodontics is that branch of dentistry pertaining to the restoration and maintenance of oral functions, comfort, appearance, and health of the patient by the restoration of natural teeth and/or the replacement of missing teeth and contiguous oral and maxillofacial tissues with artificial substitutes. (Adopted May 1976, American Dental Association.)

VI. **Fraudulent, Misleading, or Deceptive Advertising**.

A. For purposes of Miss. Code Ann. § 73-9-61, "advertising" shall include any information communicated in a manner designated to attract public attention to the practice of the licensee.

B. A dentist may provide information regarding himself or herself, his or her practice, and fixed fees associated with routine dental services in various forms of public communications. These communications include, but are not limited to, the following:

1. Newspapers;
2. Magazines;
3. Yellow Page directories;
4. Consumer directories;
5. Outdoor advertising;
6. Radio advertising;
7. Television advertising;
8. Electronic bulletin board systems; or
9. Comparable written publications or broadcast advertising.

The dentist shall have the ultimate responsibility for all advertisements which are approved by that dentist and his or her agents or associates.

C. A dentist must disclose the fact of giving compensation or anything of value to representatives of the press, radio, television, or other communicative medium in anticipation of or in return for any advertisement (e.g., a newspaper article) unless the nature, format, or medium of such advertisement make the fact of compensation apparent.

D. Advertising may include, but is not limited to, the following information:

1. The dentist's title or degree or designation of any special area of dental practice recognized by the American Dental Association in which the dentist has met the existing educational requirements or standards for that recognized specialty;
2. Office and telephone answering hours, office location, office telephone number, residence address, and residence telephone number; and
3. Fees for a specific, routine service which, for purposes of this rule, may be characterized as a "routine dental service" if it is performed frequently in the dentist's practice, is usually provided at a specific fee to substantially all patients receiving the service, and is provided with little or no variance in technique or materials.

E. The following requirements shall be met when advertising a routine dental service:

1. If a range of fee is advertised (including the use of words such as "from," "as low as," or "starting at"), the minimum and maximum fees shall be fully disclosed.
2. Consultation, treatment planning, or treatment for any routine dental service advertised for a specific fee must be made available for a minimum of sixty (60) days following the last day of publication or broadcast of that fee or for any shorter period of time if clearly specified in the advertisement.
3. When a routine dental service is advertised as "free," "no charge," "without charge," or the like, such service must be made available at no cost for a minimum of sixty (60) days following the date of the last publication or broadcast of such free service or for any shorter period of time if clearly specified in the advertisement.
4. When a patient accepts the treatment plan for a routine dental service which was advertised by the dentist, any subsequent dental service which is reasonably and foreseeably related to the advertised routine service must be provided without additional charge, unless the advertisement for the routine dental service includes the following statement: ***"Additional charges may be incurred for related services which may be required in individual cases."*** This disclaimer must have the same size lettering as the price listed. If this form of advertisement is through a television broadcast, the disclaimer must be run throughout the entire broadcast. Furthermore, if this form of advertisement is through a radio broadcast, the disclaimer must be clearly audible.
5. No advertisement concerning a dentist's routine dental services shall be published or broadcast unless it contains in legible and/or audible language the following: ***"No representation is made about the quality of the dental services to be performed or the expertise of the dentist performing such services."*** This disclaimer must have the same size lettering as the price listed. If this form of advertisement is through a television broadcast, the disclaimer must be run throughout the entire broadcast. Furthermore, if this form of advertisement is through a radio broadcast, the disclaimer must be clearly audible.

F. The following statements in advertising shall be deemed to be misleading to the public for purposes of this rule:

1. Statements claiming superiority of a particular method of treatment, material, drug, or appliance.
2. Statements that a certain dentist is a specialist or specializes in any branch of dentistry, unless that

specialty is recognized by the American Dental Association and the Mississippi State Board of Dental Examiners and the dentist has met the existing educational requirements and standards for that recognized specialty. This includes membership in an organization that has not been recognized by the American Dental Association. If there is any question regarding this rule, the dentist should seek prior approval from the Mississippi State Board of Dental Examiners.

3. Statements such as "quality dentistry," "quality work," "staff of skilled dentists," "skilled employees," or reference to uncertified or unlicensed persons performing functions requiring a license under Miss. Code Ann. § 73-9-1, et al.
4. Statements of superior facilities at a certain office; statements that an office is "scientifically equipped" and/or has the "latest modern equipment"; references to "modern offices," "modern methods," or "modern devices"; and other similar expressions.
5. Statements that a dental operation or treatment can be performed without causing any pain.

G. General dentists who list any services performed must place a disclaimer as large and as bold as the services listed. The public communication must include immediately after the listing of services the following statement: ***"Listing of these previously mentioned area(s) of practice does not indicate any certification of expertise therein."*** Any public communication through an electronic medium shall contain such statement at a time and in a tone and manner so as clearly to convey the required information to the listener or viewer.

H. Specialists may list only specialties for which they are licensed in the State of Mississippi. Specialists may list services performed but not that an individual specializes in such services.

I. In-person and telephone solicitations of dental patients by a dentist or his agent poses an inherent danger to the public because such advertising cannct be supervised, may exert pressure on the prospective patient, and often demands an immediate response without affording the prospective patient an opportunity for comparison or reflection. Unlike an advertisement appearing in print or through a broadcast medium (e.g., television or radio), in-person and telephone solicitations do not simply provide information and leave the recipient free to act or not, but is ripe with the potential for overbearing persuasion. Accordingly, in-person and telephone solicitations of dental services by a dentist or his agent is strictly prohibited.

Regulation 43 amended by the Mississippi State Board of Dental Examiners on 30 May, 1995.

! You can't speak a kind word too soon, for you never know how soon it will be too late.

Board Regulation #45

Section 5 has been amended to state that any licensee wishing to change from "inactive" to "active" status must be certified in cardiopulmonary resuscitation during the twelve (12) months prior to requesting a change in status.

Purpose: To establish Cardiopulmonary Resuscitation requirements for dentists and dental hygienists.

1. Cardiopulmonary Resuscitation (CPR) requirements will be effective on July 1, 1994, and reporting will be incorporated with the annual registration to be submitted July 1, 1995. Refer to Board Regulation #41 concerning reporting requirements.
2. All dentists and dental hygienists licensed by the State of Mississippi and holding active licenses shall be currently certified in Cardiopulmonary Resuscitation.
3. Proof of certification shall be kept by the dentist or dental hygienist and shall be made available for review at any time by any member of the Board or by any designated agent of the Board.
4. False certification of CPR courses or failure to comply with this regulation shall subject the dentist or dental hygienist to disciplinary action, including revocation of license.
5. Any dentist or dental hygienist requesting a change from inactive to active status is not required to meet the CPR requirements for the reporting period during which that dentist or dental hygienist was inactive. However, any dentist or dental hygienist requesting active status must, within the previous twelve (12) months prior to requesting active status, be certified in cardiopulmonary resuscitation.

Regulation Forty-Five amended by the Mississippi State Board of Dental Examiners 29 May, 1995. ☐

FREQUENTLY ASKED QUESTIONS REGARDING PROCEDURES A DENTAL ASSISTANT CAN PERFORM

Pursuant to Miss. Code Ann. § 73-9-3, dentists may delegate certain procedures to "other competent dental auxiliary personnel as he may direct while acting under the imemdiate supervision and direction and full responsibility of the dentist...." The MSBDE receives many telephone calls inquiring whether a particular procedure should be delegated to a dental assistant. The following is a brief summary of a few procedures the MSBDE has determined as acceptable for delegation to dental assistants.

- Apply topical anesthetics and fluoride
- Take impressions for study and opposing models
- Construction, adjustment, and cementation of temporary crowns (temporary meaning crowns placed while permanent restoration is being fabricated)
- Apply bonding agents and sealants
- Expose radiographs (with a permit from the MSBDE)
- Write laboratory prescriptions
- Telephone prescriptions to local pharmacies under the direct supervision and instruction of the dentist
- Polish coronal portion of tooth and dentures
- Monitor patients under Nitrous Oxide

- Take pulse, blood pressure, and temperature of patient
- Remove periodontal dressings and sutures
- Place and remove gingival retraction cord
- Remove excess cement
- Apply and remove a rubber dam
- Place chemically impregnated fibers in the sulcus for restorative procedures
- Place actisite--only under the direct supervision of the dentist and only after appropriate training; however, a dental assistant MAY NOT scale or root plane the root surface as part of this procedure ☐

DENTISTS LICENSED SINCE DECEMBER 31, 1994

Congratulations to the following individuals who qualified for licensure to practice dentistry in Mississippi. Of the 33 candidates administered the 1995 annual licensure examination, the MSBDE issued 32 dental licenses. A "(C)" represents those individuals who obtained licensure through credentialing, and a "(P)" denotes those individuals who have been granted provisional, provisional teaching, or provisional fellowship licenses.

DENTAL HYGIENISTS LICENSED SINCE DECEMBER 31, 1994

Congratulations to the following individuals who qualified for licensure to practice dental hygiene in Mississippi. Of the 56 candidates administered the 1995 annual licensure examination, the MSBDE issued 50 dental hygiene licenses. A "(C)" represents those individuals who obtained licensure through credentialing, and a "(R)" denotes those individuals whose licenses, pursuant to Board Regulation 23, were reinstated after having been voided for a failure to re-register.

DENTAL ASSISTANTS ISSUED RADIOLOGY PERMITS SINCE DECEMBER 1, 1994

Congratulations to the following individuals who qualified for and received radiology permits. A radiology permit entitles that individual to administer radiographs as required within the scope of his/her duties as a dental assistant. Dental assistants who do not have radiology permits are not licensed to and must not administer radiographs. An asterisk represents an individual who is a Certified Dental Assistant, and two asterisks represent an individual who is a graduate of a dental assistant program. You will note that some individuals qualify in both categories. The MSBDE conducts periodic site visits to ensure that radiographs are administered only by those dental assistants who have qualified for and have received the appropriate radiology permit. If it is found that a dental assistant is administering radiographs without a radiology permit, the dentist employing that individual may be subject to formal disciplinary action by this Board.

DENTAL LICENSES VOIDED SINCE DECEMBER 31, 1994

The following individuals have had their licenses to practice dentistry in the State of Mississippi voided. A "(D)" denotes those individuals who are deceased, and a "(R)" denotes those individuals whose licenses were revoked. According to the laws of the State of Mississippi, anyone whose license has been revoked no longer may practice dentistry in this State.

RADIOLOGY PERMITS VOIDED SINCE DECEMBER 1, 1994

The following individuals have had their radiology permits voided since December 1, 1994. Many of these permits were voided March 1, 1995 for a failure to re-register; consequently, should these individuals continue to be employed as dental assistants, they no longer may administer radiographs as part of their dental assisting practice. A "(R)" denotes those individuals who requested that their radiology permits be voided, and a "(H)" denotes those individuals whose radiology permits were voided because they now are licensed dental hygienists.

DISCIPLINARY ACTIONS

The following report on disciplinary actions covers the period January 1, 1995 through July 31, 1995. According to State law, investigations by the Board are confidential until official action is taken. When a disciplinary action is the direct result of a chemical abuse problem and the offending individual has voluntarily entered an approved chemical dependency treatment program, the name will not be published.

James T. Coleman, Jr., D.M.D., Pearl, MS; MSBDE Docket No. 94-052 **June 29, 1995**

Charge: Violated Miss. Code Ann. §§ 73-9-61(1)(b) and 73-9-61(1)(d), and the Regulations of the Board as follows: (1) two violations of Miss. Code Ann. §§ 73-9-61(1)(b) in that Dr. Coleman violated Board rules and regulations as these pertain to patient recordkeeping and infection control, such rules and regulations noted as Board Regulations 1, 35, and 39; and (2) violation of Miss. Code Ann. §§ 73-9-61(1)(d) in that Dr. Coleman administered, dispensed, or prescribed narcotic drugs, or any other drugs having addiction-forming or addiction-sustaining liability, to various patients otherwise than in the course of the legitimate professional practice of dentistry.

Disposition: An Order of Board was entered on June 29, 1995 suspending Dr. Coleman's Mississippi dental license for 3 years effective July 1, 1995 through and including June 30, 1998. The suspension of his Mississippi dental license is stayed immediately contingent upon the following: (a) A Board member will inspect Dr. Coleman's offices prior to its August 4, 1995 meeting to ensure that Dr. Coleman has complied with Board rules and regulations concerning infection control. (b) Dr. Coleman will appear at the August 4, 1995 meeting, answer any and all questions, and inform the Board of procedures established to ensure the accurate and timely maintenance of patient records and infection control. (c) Dr. Coleman shall surrender his Drug Enforcement Administration ("DEA") registration number to ensure that he no longer may write prescriptions for controlled substances, and Dr. Coleman may not re-apply for a DEA registration number during the three-years of his license suspension, or not before July 1, 1998. (d) Dr. Coleman must complete a minimum of 20 additional continuing education hours on or before August 31, 1996, which shall encompass prescription writing, infection control, and practice management (e.g., patient recordkeeping). Dr. Coleman must complete a minimum of 6 continuing education hours in each category, and he must attend and successfully complete the August 21, 1995 seminar entitled "DEA Overview and the Controlled Substances Act." Finally, Dr. Coleman shall submit proof of completion of the additional continuing education no later than August 31, 1996. (e) Should Dr. Coleman fail to meet any of the conditions of this stay of suspension, the stay will be lifted, and Dr. Coleman's Mississippi dental license may be revoked. (f) Pursuant to this Board's authority, members will make unannounced site visits to Dr. Coleman's office during the three-year suspension of his Mississippi dental license. (g) Pursuant to Miss. Code Ann. § 73-9-61(4)(a), Dr. Coleman is fined $250.00 for each violation of the Mississippi Dental Practice Act and the rules and regulations of this Board, or a total of $750.00. (h) Pursuant to Miss. Code Ann. § 73-9-61(4)(d), Dr. Coleman shall pay all reasonable costs of these proceedings, which costs amount to $1,885.71.

Gene L. Coopwood, D.D.S., Shelby, MS; MSBDE Docket No. 94-019 **May 2, 1995**

Charge: Administering, dispensing, and/or prescribing controlled substances in a manner otherwise than in the course of the legitimate, professional practice of dentistry, including, but not limited to, the prescription of controlled substances to Ms. Eveline Coopwood, in violation of Miss. Code Ann. §§ 73-9-61(1)(b) and 73-9-61(1)(d), and Board Regulation 35.

Disposition: An Order of Board was entered on May 2, 1995 suspending Dr. Coopwood's Mississippi dental license for 3 years. The suspension of Dr. Coopwood's license is stayed immediately contingent upon the following: **(a)** Dr. Coopwood shall complete an additional 24 continuing education hours over the next 3 years, encompassing either pharmacology, prescription writing procedures, recordkeeping, or alcohol and drug abuse among dental professionals. **(b)** Dr. Coopwood must attend the seminar entitled "Alcohol Abuse in Dentistry, a Profession Coming to Terms" in Gatlinburg, Tennessee. **(c)** Over the next 3 years, Dr. Coopwood must attend weekly meetings of Alcoholics Anonymous and provide proof of attendance to the Board on a monthly basis. **(d)** Should Dr. Coopwood fail to meet any of the conditions of this stay of suspension, the stay will be lifted, and Dr. Coopwood's Mississippi dental license may be revoked. **(e)** Pursuant to Miss. Code Ann. § 73-9-61(4)(a), Dr. Coopwood is fined $500.00 for his violations of the Mississippi Dental Practice Act. **(f)** Pursuant to Miss. Code Ann. § 73-9-61(4)(d), Dr. Coopwood shall pay all reasonable costs of these proceedings, which costs amount to $2,961.38.

Ocie V. Lewis, Jr., D.D.S., Picayune, MS; MSBDE Docket No. 94-056 **June 15, 1995**

Charge: Violation of Miss. Code Ann. §§ 73-9-61(1)(b) and 73-9-61(1)(d) and the regulations of the Board, in particular Board Regulations 1, 35, 39, 41, and 45. Specifically, the Board determined as a matter of fact that Dr. Lewis **(1)** did administer, dispense, and/or prescribe controlled substances in a manner otherwise than in the course of the legitimate, professional practice of dentistry, including, but not limited to, the prescription of controlled substances to various patients identified at the hearing of this matter in a manner otherwise than in the course of the legitimate professional practice of dentistry; **(2)** failed to provide appropriate infection control as such control pertains to Dr. Lewis' clinical facilities; **(3)** failed to maintain adequate patient records insofar as these records pertain to dental procedures performed and prescriptions written for his patients; and **(4)** failed to provide proof of compliance with Board regulations concerning continuing education and cardiopulmonary resuscitation.

Disposition: Dr. Lewis' Mississippi dental license was REVOKED effective May 31, 1995 for such gross and willful violations of Miss. Code Ann. §§ 73-9-61(1)(b) and 73-9-61(1)(d) and the aforementioned rules and regulations of this Board, and as further evidenced by the Order of Board dated May 12, 1995 summarily suspending Dr. Lewis' Mississippi dental license until such time as formal disciplinary proceedings could be instituted and determined, pursuant to Miss. Code Ann. § 25-43-13. Pursuant to Miss. Code Ann. § 73-9-65, Dr. Lewis' license revocation was filed with the Circuit Clerk of Pearl River County, Mississippi. As such, Dr. Lewis no longer may practice dentistry in the State of Mississippi in any form or manner whatsoever; furthermore, should Dr. Lewis continue to practice dentistry, he will be subject to further legal action. Dr. Lewis must immediately and properly dispose of any and all medically contaminated supplies, instruments, containers, equipment, etc.; controlled substances; and any other pharmaceuticals, including, but not limited to, pain medication and/or antibiotics, all of which may be in his custody and control for use in his dental practice in Picayune, Mississippi.

V. Charles Rainey, D.M.D., Jackson, MS; MSBDE Docket No. 94-053 **February 8, 1995**

Charge: Violation of Miss. Code Ann. § 73-9-61(1)(f) which states, in part, as follows:

> (f) Malpractice, gross ignorance, incompetency or the employing of unlicensed persons to perform work which under state law can only be done legally by persons holding a license to practice in this state.

Disposition: A Consent Order was entered into between the Board and Dr. Rainey on February 8, 1995 wherein Dr. Rainey admitted to the above-referenced violation and, in particular, to incompetent supervision of his office insurance billing procedures. Further, Dr. Rainey's Mississippi dental license was suspended for one year from the date of the Consent Order, and the license suspension was stayed immediately contingent upon the following: **(a)** During the one-year license suspension, Dr. Rainey must not violate any terms of the Consent Order, the Mississippi Dental Practice Act, or the rules and regulations of the Board. **(b)** Within 3 calendar years from the date of the Consent Order, Dr. Rainey must complete 20 additional continuing education hours in insurance billing procedures, and Dr. Rainey must furnish to the Board proof of attendance. **(c)** Pursuant to Miss. Code Ann. § 73-9-61(4)(a), Dr. Rainey is fined $250.00. **(d)** Pursuant to Miss. Code Ann. § 73-9-61(4)(d), Dr. Rainey shall pay all reasonable costs of these proceedings, which costs amount to $585.00.

Mr. Jimmy Ross, Denturist, Amite County, MS; MSBDE Docket No. 94-039 **July 19, 1995**

Charge: Violation of Miss. Code Ann. §§ 73-9-61(1)(a) and 73-9-41 in that Mr. Ross was practicing dentistry in the State of Mississippi without a license.

Disposition: On July 19, 1995 before a Justice Court Judge in Amite County, Mississippi, Mr. Ross entered a no contest plea to practicing dentistry without a license, was fined, and was assessed all costs of Court.

Randall M. Schaffer, D.D.S., Corinth, MS; MSBDE Docket No. 94-006 **March 27, 1995**

Charge: Violation of Miss. Code Ann. § 73-9-61(1)(b) and Board Regulation 35, which deals with the inventory, maintenance, and dispensing of controlled substances, and wherein the Drug Enforcement Administration and the Board determined that Dr. Schaffer failed to maintain complete and accurate controlled substances dispensing records.

Disposition: A Consent Order was entered into between the Board and Dr. Schaffer on March 27, 1995 wherein Dr. Schaffer agreed as follows: **(a)** Pursuant to Miss. Code Ann. § 73-9-61(4)(a), Dr. Schaffer is fined $500.00. **(b)** Pursuant to Miss. Code Ann. § 73-9-61(4)(d), Dr. Schaffer shall pay all reasonable costs of these proceedings, which costs amount to $724.65. **(c)** Dr. Schaffer agrees to maintain in his office only a sufficient quantity of controlled substances to administer to patients. **(d)** Dr. Schaffer must not dispense controlled substances other than by administration or prescription for 5 years from the date of the Consent Order, and he must not prescribe controlled substances for himself or any member of his immediate family. **(e)** Dr. Schaffer must maintain a legible log of all controlled substances prescribed or administered and provide such to the Board upon request. Such log shall consist of the date, patient name and address, controlled substance administered or prescribed, and the strength, dosage and purpose for such controlled substance. **(f)** If Dr. Schaffer violates any of the terms of the Consent Order, his Mississippi dental license will be subject to revocation proceedings by the Board.

Donna Shiers Wagner, R.D.H., Clinton, MS; MSBDE Docket No. 94-060 **April 1995**

Charge: Violation of Miss. Code Ann. §§ 73-9-61(1)(a) and 73-9-41 in that Ms. Wagner was practicing dental hygiene in the State of Mississippi without a license.

Disposition: Before the Municipal Court in Clinton, Mississippi, Ms. Wagner entered a no contest plea to practicing dental hygiene without a license. □

CHANGE OF ADDRESS NOTIFICATION

Pursuant to Miss. Code Ann. § 73-9-19, every licensed dentist and dental hygienist "shall promptly keep the board advised of any change in address of his office or residence." Additionally, Board Regulation 25, VI.A., stipulates that "[e]very person holding a radiology permit shall promptly keep the Board advised of any change of mailing address." Therefore, if you have changed your home, business, mailing, or satellite address, please use this form to notify the MSBDE of such. Otherwise, keep the form in your files should you need to notify the MSBDE of a future change of address. You may cut along the dotted line, affix a postage stamp to the reverse side of this form, and mail it directly to the Mississippi State Board of Dental Examiners. If you wish, you may send the form via facsimile to (601)924-9623. Please call (601)924-9622 should you have any questions.
