Applicant Anesthesia Provider recognizes that healthcare providers may suffer from potentially impairing health conditions, just like their patients, including psychiatric illness, physical illness which may impact cognition, and substance use disorders. All healthcare providers are expected to properly address their healthcare concerns, in order to ensure patient safety. This includes seeking appropriate medical care and limitations on healthcare practice, when appropriate. Failure of a healthcare practitioner to adequately address any health condition which may impair their ability to practice medicine with reasonable skill and safety to patients will likely result in loss of collaboration with other healthcare providers and possibly loss of license. By submitting this application, I acknowledge I have read and understood this statement
